

PORTS OF INDIANA

Business Development Seminar

1 Foreign-Trade Zone – 9 Counties – No waiting!

One zone, nine counties, 11 months faster. The Port of Indiana-Mount Vernon's Foreign-Trade Zone #177 has now expanded to include the counties of Daviess, Dubois, Gibson, Knox, Pike, Posey, Spencer, Vanderburgh and Warrick. This new FTZ designation helps businesses located anywhere in these counties join an FTZ easier than ever and in as little as 30 days.

Join the Ports of Indiana and Vectren for a business development luncheon featuring a national FTZ expert, Scott Taylor of Miller & Company from Kansas City, Mo. Business and community leaders who have an interest in learning more about FTZs are invited to attend free of charge to learn how this new FTZ expansion can impact their company.

Scott Taylor is an attorney with Miller & Company, a law firm serving a diverse clientele in international trade, customs and FTZ law. They have received global recognition for their involvement in the development of the U.S. FTZ program and have a broad client base in all 50 states and Puerto Rico and in major trading centers throughout the world. Clients range from large multinational enterprises to corporations, partnerships, associations, governmental entities and individuals.

Topics to be discussed include:

- Overview of Foreign-Trade Zones Program
- Impact of the new zone designation
- Types of Zones and Companies in Zones
- Financial Savings Opportunities
- How to Activate a Zone with U.S. Customs
- Expedited Process for Manufacturing Approval
